DETAILED ACTION

Specification

1. The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) TITLE OF THE INVENTION.
- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT
- (e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC (See 37 CFR 1.52(e)(5) and MPEP 608.05. Computer program listings (37 CFR 1.96(c)), "Sequence Listings" (37 CFR 1.821(c)), and tables having more than 50 pages of text are permitted to be submitted on compact discs.) or
REFERENCE TO A "MICROFICHE APPENDIX" (See MPEP § 608.05(a). "Microfiche Appendices" were accepted by the Office until March 1, 2001.)
- (f) BACKGROUND OF THE INVENTION.
 - (1) Field of the Invention.
 - (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (g) BRIEF SUMMARY OF THE INVENTION.
- (h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
- (i) DETAILED DESCRIPTION OF THE INVENTION.
- (j) CLAIM OR CLAIMS (commencing on a separate sheet).
- (k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).
- (l) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).

1. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.
2. Specification does not include BRIEF SUMMARY OF THE INVENTION.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

In particular:

Claim 1 [see Claim 1 paragraph 5-6 on page 3, line 1-8]

“first credit” is indefinite because it is unclear to the examiner if this is Senior, Subordinate or both.

Even if the examiner assumes “first credit” is the “first senior holder” or “second senior holder” the claim is still unclear. For example, in paragraph 5 the “second subordinate holder” performs the obligation of the... benefit of the “first senior holder” implying the first senior holder was not paid because of bankruptcy or default. If this

Art Unit: 3628

were the case how would the “first senior holder” be able to pay the “second subordinate holder?” A real example with quantifiable numbers and a live example are needed in the specification to explain the scenario.

Claim 2 [see Claim 2 paragraph 2-3]

“second credit” is indefinite because it is unclear to the examiner if this is Senior, Subordinate or both.

Once again, even if the examiner assumes “first credit” is the “first senior holder” or “second senior holder” the claim is still unclear. For example, in paragraph 2 the “first subordinate holder” performs the obligation of the... benefit of the “second senior holder” implying the first senior holder was not paid because of bankruptcy or default. If this were the case how would the “second senior holder” be able to pay the “first subordinate holder?” A real example with quantifiable numbers and a live example are needed in the specification to explain the scenario.

Claim 4, “first credit and second credit” is indefinite because it is unclear to the examiner if this is Senior, Subordinate or both.

Claim 5 – 8 “first credit” is indefinite because it is unclear to the examiner if this is Senior, Subordinate or both.

Once again, a real example with quantifiable numbers and a live example are needed in the specification to explain the scenario.

Claim 6, “subrogation” is unclear to one of ordinary skill in the art and needs a definition. For example, subrogation is the substitution of one person for another, especially the legal doctrine of substituting one creditor for another.

Claim 11, "a transaction pool, of n credits, ... what is a default state?"

Similarly, limitations in claims 11-19 should be clearly defined, and applicant is required to point out where in the specification they are defined.

Conclusion

Claims 1-19 remain rejected.

In response to this office action applicant must add a statement no new matter is added.
